Work Experience

Front end developer
Rez cabs | Hyderabad

Mar 2023 - Apr 2023

- As a Front-End Developer at Rez Cabs I played a key role in enhancing
- user interfaces by implementing responsive design principles and
- optimizing performance. I collaborated closely with UX/UI designers to
- translate their vision into seamless, user-friendly applications.

Projects

INSTAGRAM CLONE
Present

I've built an Instagram clone using React, featuring user authentication, photo sharing, and real-time updates. Implemented a responsive UI and integrated state management for seamless user experience and efficient data handling.

CHAT APPLICATION
Present

Created a chat app with Node.js and WebSockets for real-time messaging. It lets users send instant messages and see live updates, making conversations smooth and interactive. The app supports chatting with multiple people at once.

BOOKING APP
Present

Created a full-stack booking app using the MERN stack, featuring user authentication, booking management, and real-time availability updates. Implemented a responsive UI with intuitive design, and efficient backend integration for smooth booking and user experience.

Core Skills

C++, JavaScript (Intermediate), React, Node js (Intermediate), HTML5, CSS3, GIt, GitHub, Agile Development, Debugging Code, Technical Documents, Programming Languages, Ability to Learn, Researching, Work Well Under Pressure, Object-Relational Mapping, java
